## Chess Club

San Jose Chess School for Kids. is a professional chess organization that began nearly two decades ago as a group of casual to competitive chess members of the SJSU Chess Club. Shortly after members began teaching to adults, then kids, then on to organizing youth chess teams and tournaments. Our award winning Chess Club coaches have been teaching successful chess scholastics at all levels to K-6th students since 1999. The program focuses on enhancing the core curriculum while improving student's critical thinking and test taking skills. Kids see chess as a game and do not realize the powerful learning that goes on while they play.

## Cooking class with Chef Koochooloo

Chef Koochooloo is an international educational platform that empowers kids to engage in fun, interactive cooking activities while learning about geography, math, science and social responsibility. Their vision is to bring families together to discover the world through healthier cuisines, while raising better global citizens. For each Chef Koochooloo session, the instructor chooses a particular country and takes the kids on a culinary journey. Chef Koochooloo teaches them basic fun (kid relevant factoids), raise awareness about a social issue that is affecting kids in that country, and highlight nutritional values of the healthy ingredients we spotlight.

## Science Club

Mad Science is the world's leading provider of science-based enrichment activities for children ages 4-12. Founded on the principle that learning should be fun, our educational programs also meet STEM objectives; which ensures a high level of educational quality.

Mad Science is all about sparking your child's imagination through scientific discoveries. From bugs to outer space, science can be found everywhere! Children are delighted and excited when they learn to explore and experience the scientific world around them through our lively, hands-on science

programs. Delivering science through fun provides great activities for children in the Bay Area, and it also reinforces many of the concepts they are learning in their classrooms. Children will be amazed when they: Create an indoor storm with thunder and lightning; Bend light to see all rainbow colors; Alter their voices and learn that sound travels in invisible waves; Make magic mud, soda pop, and learn how matter can change physically and chemically And much more!

### Creating and Editing Web Videos

These days, video is everywhere. Grownups take videos of their kids with their phones, cameras, and computers in ways the original creators of film never could have imagined. Kids make videos of their toys, recreating favorite tv show and movie scenes, and more! Do you want in on the action? Do you want the videos you create to look more professional and interesting? Take this class, and you'll learn the basics of planning, creating, editing, and publishing video for the web. We will cover everything -- from the planning stages (how to create a storyboard and plan your video), to the shooting (including lighting, sound, and composing a shot), to the editing of the completed video. By the end of the course, you will have created a simple, short video and published it online. Your friends will be envious of your videography skills!

# All year Program

The All-Year Activity Program allows you to sign up once and to schedule the specific activity at the same day and time during the entire school year... All Year program does not offer drop out option

## Public Speaking

Gurus Education (Bay Area Debate Club) conducts basic and advanced programs and tournaments in Public Speaking and Debates throughout the Bay Area. Being able to communicate effectively and confidently has immeasurable benefits. A student, who can articulate well, feels confident in participating in class discussions, hence learns more. He can give a clear structure to his thoughts, which improves his writing skills, critical thinking, reasoning and research skills. Students become better listeners and analysts.

Our well defined Public Speaking and Debate Programs teach students these soft skills and much more. These programs are ideal for both types of students who are either extremely shy and who are confident speakers and enjoy the limelight. While the shy students learn how to overcome anxiety and fear of public speaking, the confident speakers learn to shape their ideas effectively, get a forum to engage in constructive debating and public speaking. Cultivate the leadership skills from this tender age in the friendliest and fun way.

**Building Confidence & Pre-Public Speaking: For 1-3 – Wednesdays @ 2:20pm-3:20pm (60 min) starting on 9/23 for 26 sessions: \$390**

## Spanish OR Chinese Mandarin

Berlitz offers a global presence with more than 550 company-owned and franchised locations in more than 70 countries. Berlitz language programs for kids and teens: It's a natural match! Childhood is the easiest time to learn a foreign language. They naturally immerse themselves in the new language. The earlier children start to learn, the more likely they are to speak without an accent. With Berlitz, kids and teens can have fun, too. Language instruction benefits kids and teens

- It encourages intellectual development
  - It aids understanding of the native language
  - It lays a foundation for appreciating other cultures
  - It provides a sound basis for language learning at school
- Berlitz Kids and Teens provides fun, immersion-style programs that really get young people excited about learning Spanish! The Berlitz Method allows students to learn another language in the same way they learned to speak in their native tongue: by listening, repeating, and speaking. Colorful, proprietary materials stimulate their interests. Through games, songs, role-

play, music and more students will learn how to engage with the language and use it situations relevant to their daily lives.
